Riprodotta da The European House-Ambrosetti per esclusivo uso interno.

Reproduced by The European House-Ambrosetti for internal use only.

Temix was born in 2003 from a group of skilled Engineers coming from a world wide experience in Satellite and Wireless fields.

It was founded in Catania (Italy) for the natural origins of the founders and for the local favourable industrial context, with an important Hi-Tech district.

The Mission

To supply high quality and innovative communications technology for Satellite, Wireless Networks and ICT infrastructure.

Products

FLYAWAY

It is the Temix's product family for conventional
Portable Terminal

Temix's FLYAWAYS benefits of the most advanced
Technologies, they are designed for very extreme applications.

- Frequency Band C, X, Ku, K and Ka
- Light weight, Aluminum Tripod and Carbon Fiber Reflector
- High Electrical performance and stability
- Easy Deployment one person operation in less than 5 minutes

Products

EASYLINK

Next Generation Wireless Communication Link

It is the Temix's product family for Wireless applications

Temix's EasyLINK answer to Industrial and Telco grade needs with the most advanced OFDM radio technology.

- Frequency Band Licensed and Unlicensed
- IP Data and Video with embedded codecs
- Two way full duplex operation in TDD
- High Capacity IP traffic up to 100 MBit/s
- Modes Point to Point and Point to Multi Point
- Easy Deployment one person operation in less than 5 minutes

Products

EASYFLYSAT

Compact Portable Satellite Terminal

It is the main and the most important products of Temix

EasyFLYSAT introduces a new concept in the field of Portable Satellite Terminals, a single unit with all the equipments inside.

- Frequency Band C, X and Ku
- Light weight, starting from 45Kg for the basic configuration
- High Capacity EIRP for Data rate up to 6 MBit/s
- Easy pointing with integrated tool, less than 5 minutes
- Integrated with WiMax, TETRA or GSM Wireless platform
- Hi-Tec solutions, Turbo Code and IP Accelerator, Carbon Fiber

Products

One person operation
